🌍 World Geography · Study Guide (3.2, 3.3)

My world map: 7 continents and 5 oceans

Test: Friday, Nov 13

Every continent has its own color. Oceans are blue with slanted names.

Equator: splits north and south **Prime meridian: splits west and east**

🧠 Map memory tricks

- 🐻‍❄️ **Arctic Ocean** is at the very **TOP**, where it's icy cold. Arctic = top, cold.
- 🐢 **Atlantic Ocean** is in the **MIDDLE**, between the Americas and Europe/Africa.
- 🐋 **Pacific Ocean** is the biggest. It shows up on **BOTH sides** of the map.
- 🐠 **Indian Ocean** is between **Africa and Australia**.
- 🐧 **Southern Ocean** goes all the way **around Antarctica**.

✅ Can you find them all?

- ☐ **North America**
- ☐ **South America**
- ☐ **Europe**
- ☐ **Africa**
- ☐ **Asia**
- ☐ **Australia**
- ☐ **Antarctica**

- ☐ **Pacific Ocean**
- ☐ **Atlantic Ocean**
- ☐ **Indian Ocean**
- ☐ **Arctic Ocean**
- ☐ **Southern Ocean**

✏️ Tricky spellings: **Pa-ci-fic** · **At-lan-tic** · **Arc-tic** · **Ant-arc-ti-ca** · **Aus-tra-lia** · **A-mer-i-ca**

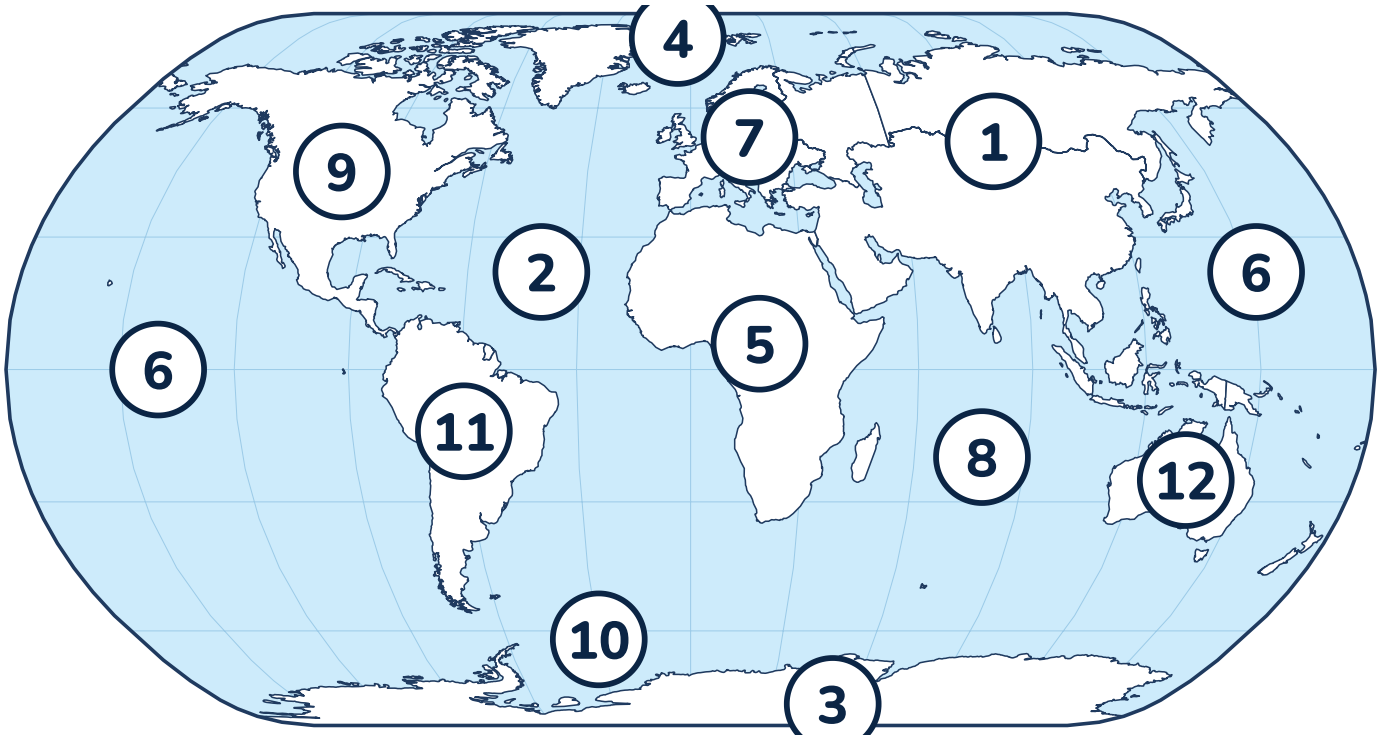

🌍 World Geography · Practice

Map quiz: name each number

Write the name of each continent or ocean on the line. Use the word bank.

Name _____

Date _____

Word bank: Arctic Ocean · North America · Indian Ocean · South America · Atlantic Ocean · Africa · Europe · Antarctica · Asia · Australia · Pacific Ocean · Southern Ocean

1 _____

2 _____

3 _____

4 _____

5 _____

6 _____

7 _____

8 _____

9 _____

10 _____

11 _____

12 _____

💡 **Check yourself: the Arctic is at the top. The Atlantic is in the middle.**

🌍 World Geography · Study Guide (3.2, 3.3)

5 important words

Learn each word and its picture.

Test: Friday, Nov 13

Continent

a large body of land

💡 There are 7 continents. Land you could walk on.

Ocean

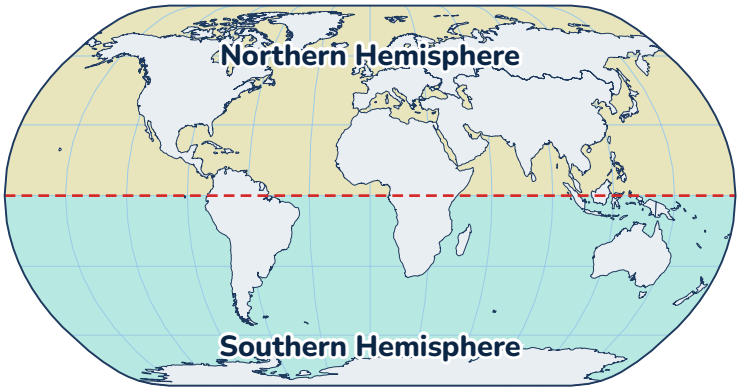

a large body of saltwater

💡 There are 5 oceans. Salty water you could sail on.

Equator

an imaginary line around the middle of Earth that divides it into the Northern and Southern Hemispheres

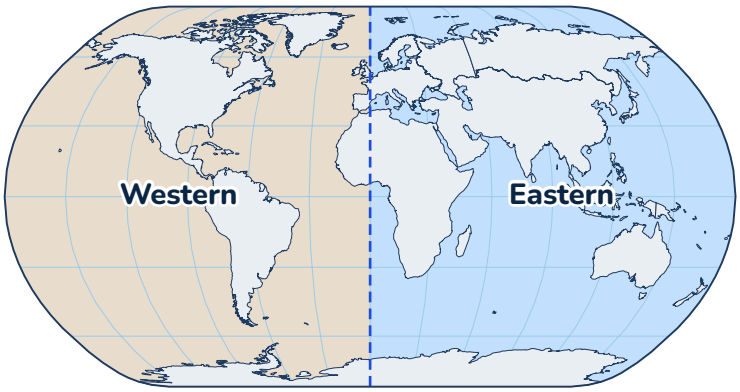

💡 EQUATOR makes EQUAL top and bottom halves: north on top, south on the bottom.

Prime Meridian

an imaginary line that divides Earth into the Eastern and Western Hemispheres

💡 It runs up and down, pole to pole. It splits the map into left (west) and right (east).

Hemisphere

half of a sphere (globe), made by the equator or the prime meridian

💡 HEMI means HALF. Every place is in 2 hemispheres at once.

Continent	North / South	West / East
North America	Northern	Western
South America	mostly Southern	Western
Europe	Northern	mostly Eastern
Africa	BOTH!	BOTH!
Asia	Northern	Eastern
Australia	Southern	Eastern
Antarctica	Southern	all around the pole

🌍 World Geography · Practice

Words and hemispheres

Name _____

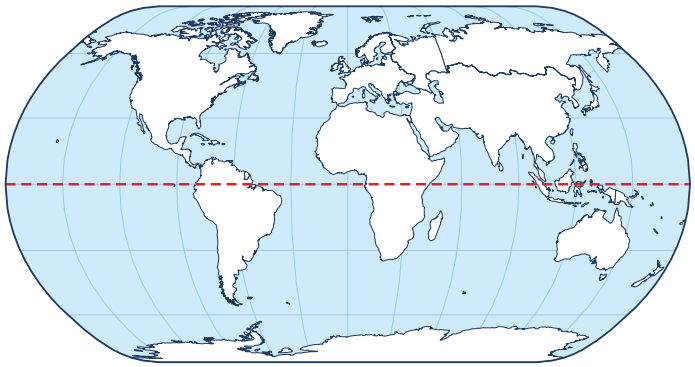

Date _____

A. Draw a line from each word to what it means.

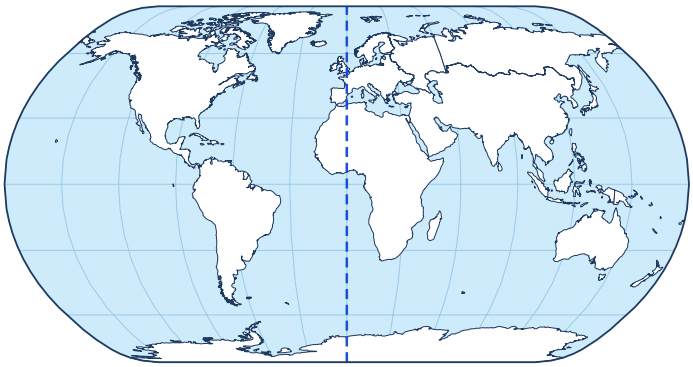

Ocean	a large body of land
Hemisphere	half of a globe
Continent	a line that splits Earth into Northern and Southern Hemispheres
Prime Meridian	a large body of saltwater
Equator	a line that splits Earth into Eastern and Western Hemispheres

B. Color the maps.

Trace the **equator in RED**. Color the **Northern Hemisphere** yellow.

Trace the **prime meridian in BLUE**. Color the **Western Hemisphere** green.

C. Fill in the blanks.

Word bank: Northern · Southern · Eastern · Western · half

1. The equator divides Earth into the _____ and _____ Hemispheres.
2. The prime meridian divides Earth into the _____ and _____ Hemispheres.
3. Australia is in the _____ Hemisphere.
4. North America is in the Northern and _____ Hemispheres.
5. “Hemi” means _____.

🌍 World Geography · Study Guide (3.2, 3.3)

Mountains and water of each continent

Test: Friday, Nov 13

⛰️ brown triangles = mountains · 💧 blue circles = rivers, lakes, seas, and reefs

🦅 North America

1. Rocky Mountains
2. Appalachian Mountains
3. Mississippi River
4. Missouri River
5. Rio Grande
6. Great Lakes

🌊 Atlantic and Pacific Oceans

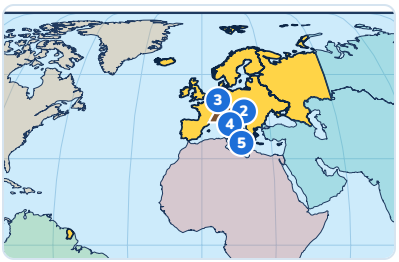

🦜 South America

1. Andes Mountains
2. Amazon River

🌊 Atlantic and Pacific Oceans

🏰 Europe

1. Alps
2. Danube River
3. Rhine River
4. Tiber River
5. Mediterranean Sea

🌊 Atlantic and Arctic Oceans

🦁 Africa

1. Mount Kilimanjaro
2. Atlas Mountains
3. Nile River
4. Niger River
5. Mediterranean Sea

🌊 Atlantic and Indian Oceans

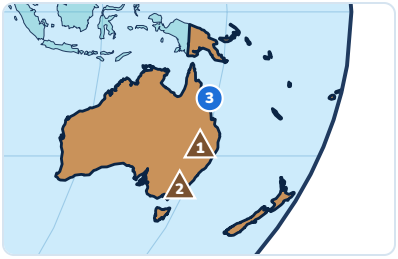

🐼 Asia

1. Himalaya Mountains
2. Mount Everest
3. Huang He River
4. Yangtze River

🌊 Pacific and Indian Oceans

🦘 Australia

1. Great Dividing Range
2. Australian Alps
3. Great Barrier Reef

🌊 Pacific and Indian Oceans

🐧 Antarctica

1. Transantarctic Mountains
2. Southern Ocean

🌊 Southern Ocean

⭐ Watch out!

Alps = Europe
Australian Alps = Australia

Mount Everest is in the **Himalayas** (Asia). It's the tallest mountain on Earth.

Trans-antarctic Mountains have Antarctica in the name!

🌍 World Geography · Practice

Feature match

Name _____

Date _____

A. Draw a line from each feature to its continent. Some continents get more than one line!

- ⛰️ Andes Mountains
- 💧 Nile River
- ⛰️ Himalaya Mountains
- ⛰️ Rocky Mountains
- 💧 Amazon River
- ⛰️ Alps
- 💧 Great Barrier Reef
- ⛰️ Transantarctic Mountains
- 💧 Mississippi River
- 💧 Huang He River

- 🦅 North America
- 🦜 South America
- 🏰 Europe
- 🦁 Africa
- 🐼 Asia
- 🦘 Australia
- 🐧 Antarctica

B. Circle the right answer.

1. The tallest mountain on Earth is...

Mount Everest | Mount Kilimanjaro | Rocky Mountains

2. Which mountains are in Africa?

Andes | Atlas | Appalachian

3. Which river is in Europe?

Amazon | Yangtze | Danube

4. The Great Lakes are in...

North America | Asia | Australia

5. Which mountains are in Australia?

Alps | Great Dividing Range | Himalayas

6. Ancient Egypt grew up along the...

Nile River | Tiber River | Rio Grande

🌍 World Geography · Study Guide (3.2, 3.3)

How geography changes daily life

Where you live impacts how you live.

Test: Friday, Nov 13

🍎 Food	👕 Clothing	🏠 Shelter

These can be different because of the **climate**, **land**, and **water** around you.

Rivers — Water to drink, farm, and travel on

🍎 fish, crops from rich soil

👕🏠 boats, homes near water

Deserts — Hot and dry

🍎 food that needs little water

👕🏠 light, loose clothes and hats; homes with thick walls that stay cool

Islands — Water all around

🍎 fish and seafood

👕🏠 boats to travel

Mountains — Colder the higher you go

🍎 goats, sheep, and crops on slopes

👕🏠 warm layers; strong homes on hills

Rain forests — Hot and very rainy

🍎 fruits and many plants

👕🏠 homes on stilts to stay dry

🏺 Ancient civilizations adapted because of where they lived

Ancient Egypt	Ancient China	Ancient Rome
farmed along the **Nile River** (Africa)	grew along the **Huang He River** (Asia)	was built by the **Tiber River** (Europe)

💡 **Rivers gave people water to drink, fish to eat, and rich soil for farming.**

🌍 World Geography · Practice

Life and land

Name _____

Date _____

A. Circle the best answer for each place.

A very cold, icy place
What should you wear?

🩳 shorts · 🧥 thick warm coat · 👙 swimsuit

A hot, dry desert
What should you wear?

🧥 snow coat · 👒 light clothes and a hat · 🧤 mittens

An island
How would you travel to the next island?

⛵ boat · 🐪 camel · 🛷 sled

A rain forest
What home keeps you dry?

🧊 igloo · 🏠 house on stilts · ⛺ tent in the sand

Next to a big river
What food might you catch?

🌵 cactus · 🧊 ice · 🐟 fish

B. True or false? Circle T or F.

1. Where you live impacts how you live. (T) (F)
2. Everyone in the world eats the same food and wears the same clothes. (T) (F)
3. Ancient civilizations adapted because of where they lived. (T) (F)
4. Rivers, deserts, islands, mountains, and rain forests are geographic areas. (T) (F)

C. Finish the sentence.

In a _____, people might _____

because _____

Pick: desert · mountain · island · rain forest · cold place · river

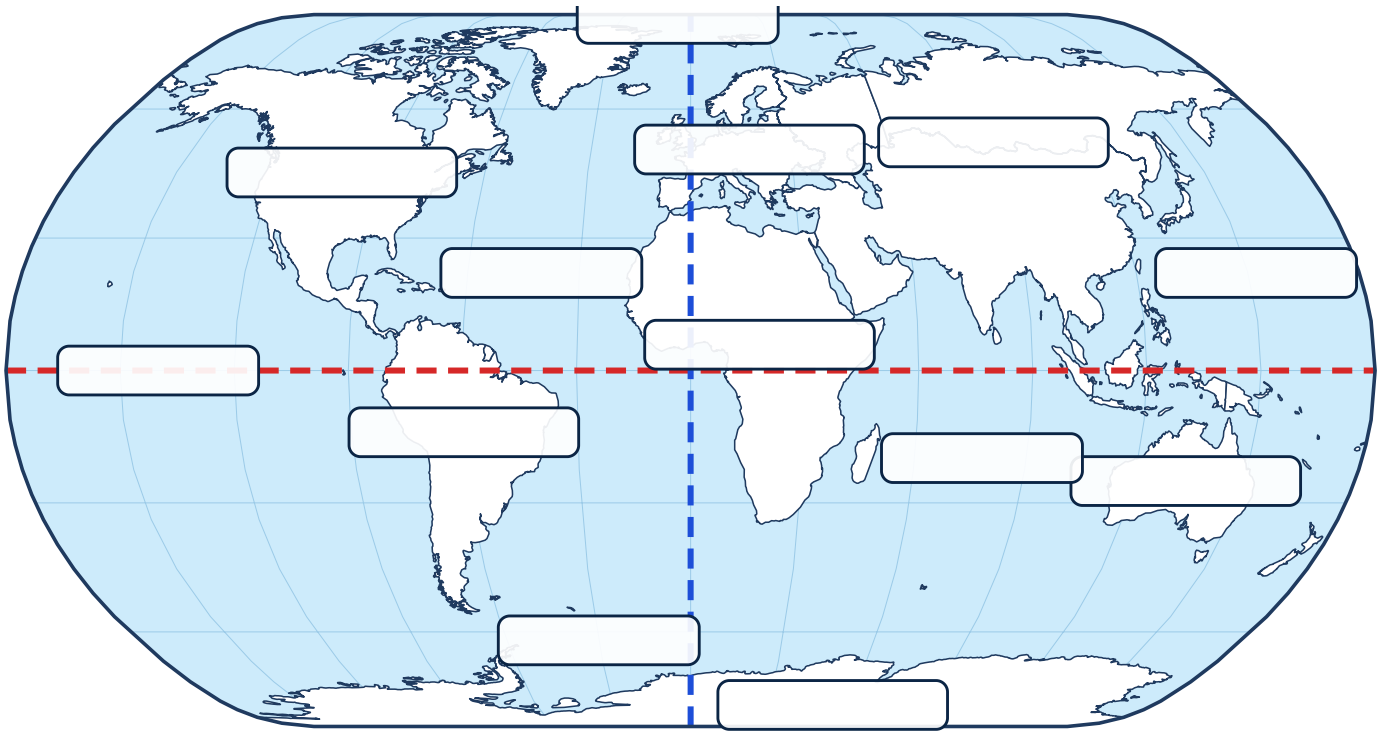

🌍 World Geography · Practice

Blank map challenge: no peeking!

Write the name of each continent and ocean in the boxes.
Then color each continent.

Name _____

Date _____

🎨 Color key

- North America: orange
- South America: green
- Europe: yellow
- Africa: red
- Asia: teal or blue-green
- Australia: brown
- Antarctica: leave white

✅ Check yourself

- ☐ I wrote all **7** continents
- ☐ I wrote all **5** oceans
- ☐ The **Arctic** is at the top
- ☐ The **Atlantic** is in the middle
- ☐ I wrote **Pacific** on both sides
- ☐ I checked my spelling with page 1

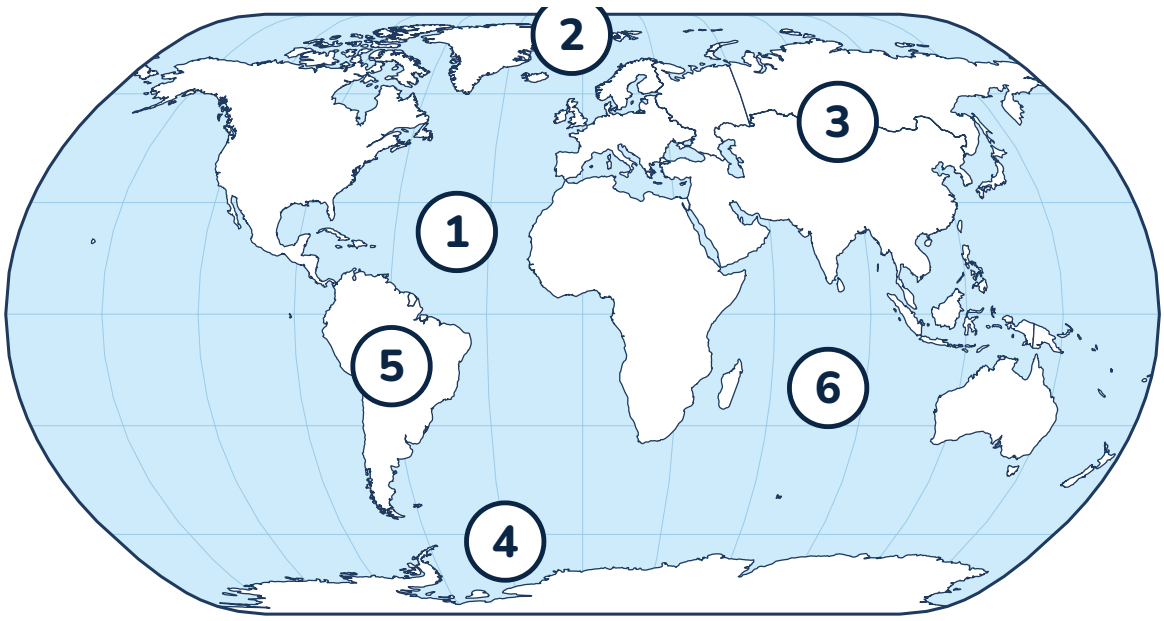

Practice test · Part 1

Do your best! Then check with the answer key.

Name _____

Date _____

Write the name of each numbered place. (Questions 1–6)

Word bank: Atlantic Ocean · Arctic Ocean · Pacific Ocean · Indian Ocean · Southern Ocean · Asia · Africa · South America

1 _____ 2 _____ 3 _____

4 _____ 5 _____ 6 _____

Circle the best answer.

7. A large body of land is called a(n)...

A ocean B continent C hemisphere D equator

8. Which imaginary line divides Earth into the Northern and Southern Hemispheres?

A prime meridian B equator C Rio Grande D Great Lakes

9. The prime meridian divides Earth into the...

A Northern and Southern Hemispheres B Eastern and Western Hemispheres C two biggest oceans D seven continents

10. A hemisphere is...

A half of a globe B a large body of saltwater C a long river D a mountain range

Practice test · Part 2

Name _____

Date _____

Circle the best answer.

11. Which ocean is at the very top of the map?

A Atlantic Ocean | B Indian Ocean | C Arctic Ocean | D Southern Ocean

12. Which continent is in the Southern AND Eastern Hemispheres?

A North America | B Australia | C Europe | D South America

13. The Andes Mountains are in...

A Africa | B Asia | C South America | D Europe

14. Which river is in Africa?

A Amazon River | B Nile River | C Mississippi River | D Yangtze River

15. Mount Everest is part of the...

A Rocky Mountains | B Alps | C Himalaya Mountains | D Atlas Mountains

16. Which body of water is near Australia?

A Great Barrier Reef | B Great Lakes | C Tiber River | D Niger River

17. The Rocky and Appalachian Mountains are in...

A North America | B South America | C Antarctica | D Europe

18. People who live in a very cold place would most likely wear...

A shorts | B swimsuits | C thick, warm coats | D sandals

19. Many ancient civilizations started near rivers because...

A rivers gave water for drinking and farming | B rivers were always frozen | C nobody could live near rivers | D rivers had no fish

20. How might geographic features impact daily life? Write one example.

People who live _____ might _____

because _____

My score _____ / 20 🐻‍❄️ 🐢 🐧 **You can do it!**

🌍 World Geography · Bonus

⭐ Bonus facts

Test: Friday, Nov 13

Extra facts from the Virginia standards. Learn the top, then try the bottom.

Oceans cover most of Earth

About **7 out of every 10 parts** of Earth's surface are ocean. People need oceans for **food** 🐟, **travel and trade** 🚢. Sea animals like whales and sea turtles live there: the ocean is their **home**.

People and countries

Asia has the **most people**. Most continents have **many countries**. **Antarctica** has **no countries and no towns**, only visiting scientists. **Australia** is a continent AND a country.

Every continent has its own climate

Antarctica is the **coldest** continent. **Africa** has a huge **desert** (the Sahara) and **rain forests**. Climate changes how people and animals live there.

Why people live near water

Water gives people **food**, **protection** (it is harder for enemies to get across), a way to **travel**, and water for **farming**.

Mountains keep people apart

Tall mountains were hard to cross, so they kept some ancient societies **apart**. Those communities developed **their own way of life**. Mountains and deserts kept ancient China apart from other places.

✏️ Try it: circle the best answer.

1. Oceans cover ___ of Earth.

most | a tiny bit | none

2. Which continent has the most people?

Antarctica | Asia | Australia

3. Which continent has no countries?

Antarctica | Africa | Europe

4. The coldest continent is...

Africa | Antarctica | Asia

5. People lived near water for food, travel, farming, and...

protection | snow | sand

6. Tall mountains kept some ancient societies...

apart | warm | wet
